

Milo & Olive Garlic Knot Kit

Store all ingredients in the fridge except salt until ready to use.

Preheat oven to 475 degrees for about 10 minutes. Your kit comes with your garlic knot already topped with oil and semolina on the bottom for baking, so all you need to do is place it on a sheet pan or an oven-safe baking dish inside the oven for 25 minutes. In a small saucepan, warm the tomato sauce through over a low heat. Once knot is baked, pour garlic oil over top of knot while it is hot and sprinkle sea salt!
